Thanks for sending the latest progress reports, Lou.

No need to keep searching for a hard copy of the 2014 NAS report. I'll order one for Richard.

Subject: RE: NAS Recommendations on IRIS

Hi Mya,

Sorry for the delay in getting back to you. I'm running out of luck finding any spare copies in NCEA. I'll check more next week, but wanted to let you know that I was striking out right now.

As for implementation of the NAS recommendations, we are in the process of updating materials in advance of the interagency discussions, but have nothing at this time. We'll certainly share

them as they're pulled together. For more of a historical look at our progress, reviewing some of the IRIS Progress Reports and Reports to Congress might be helpful. They can be found at <https://www.epa.gov/iris/iris-progress-reports>, and I've taken the liberty of attaching the two most recent reports to this message.

Best,

Lou

Louis D'Amico, Ph.D.

Subject: NAS Recommendations on IRIS

Hi Lou,

Richard has a follow up question from today's IRIS briefing. He wanted to know what our status is on implementing the NAS recommendations. Does NCEA have such a summary of our progress?

Also, if NCEA has a spare hard copies of the 2014 NAS report, Richard would appreciate having a hard copy. If not, he'll use the free PDF version available online.

Thanks,
Mya
